Explanation of regions:

EMEA: Europe, Middle East, and Africa. This region includes countries from Europe, the Middle East, and Africa.

USCA: United States and Canada. This region includes the United States and Canada.

APAC: Asia-Pacific. This region includes countries from Asia and the Pacific region.

Other: Any language not explicitly mentioned or unknown is categorized under 'Other' region.

Each language in the "Original Preferred Language" column is mapped to one of these regions based on its common usage or prevalence in specific geographical areas. Adjustments can be made to this mapping according to specific business requirements or additional language considerations.
